ground, upper part almost perpendicular; whole escape most dangerous for children. United Hebrew Charities, No. 58 St. Mark's-place; 150 girls; no fire-escapes.

COMMENTS ON THE REPORT. A reporter of THE TRIBUNE called in the afternoon at the Home for the Friendless at No. 32 East Thirtieth-st. Mr Gerry's report had not been received, but a member of the Executive Committee said that the subject of insuring the greatest pos-

A regarder of THE HIRLENS ALLENS TO SEA TO THE THIRLENS ALLENS TO SEA TO THE THIRLENS ALLENS TO SEA TH

"Has there been much trouble of the kind before?"

"Yes. A little over a month ago George William Curtis and other citizens of Staten Island who have to pass over the waters of the bay every day made a complaint to the Attorney-General. He communicated with the Standard Oil Company, and they agreed to put their sludge acid and other obnoxious refuse in tanks and carry it to sea or to some other place where it could be disposed of without offending the nostrils and endangering the heath of citizens; but the disagreeable odors still continue. It is a matter in which New-York City is as much interested as the dwellers on the shores of the bay."

"Does the sludge acid, or whatever the substance is that the oil refiners allow to run into the bay, interfere with the shell fisheries?"

"Yes; the oystermen complain loudly of the injury done to the oysters. We sent to the Attorney-General a number of affioavits on this point, all showing that great and serious injury is done to the oysters planted in the bay and to those which are kept in the 'floats' in the Kill von Kull. This sludge acid, after floating about the bay, finds lodgment on the rocks and piers along the coast, and remains to poison the air. Certainly if the nuisance arose from dead animals, the owners would be required at once to remove the cause of the odor. Why should not the oil companies be required to remove any cause of discomfort and disease !"

Complaint has been made that sludge acid on the waters of the bay eats the copper sheathing of ships lying at the wharves or in the stream.

William Rockefeiter, president of the Standard Oil Company, said yesterday that his company's remeries at Bayonne were not responsible for any pollution of the Kill yon Kull. He understood that the members of the Standard had taken all necessary precautions to prevent the overflow of sludge acid or the escape of any refuse into the water. Tre

Consoli sa satisfied that the Standard had taken all necessary precautions to prevent the overflow of sludge acid or the escape of any refuse into the water. The company waived all question of the jurisdiction of the New-York Board on the New-Jersey shore, and was willing to adopt any suggestion within reason for the prevention of any possible nuisance.

Mr. Lombard, of Lombard, Ayres & Co., who have the Seaboard Refinery at Bayonne, denied that any sludge acid had been allowed to escape from their works in the last two years. The storage capacity of the refinery was sufficient for an accumulation of three months before an overflow of acid tar would be possible. Several thousands of dollars had been expended by them to prevent any escape of refuse into the water.

One sultry Sunday a minister was thundering away at his drowsy congregation, the majority of which would go to sieep in spite of all his efforts. At last he shouted, "Wake up here! There is a man preaching to you who has only half a shirt on his back!" It woke them tremendously. The next day a delegation of ladies visited the parsonage and presented the preacher with a package containing some very nice shirts, saying "that it was a shaund that he should be reduced to half a shirt to his back." He replied, after accepting the shirts with thacks, "that he was not literally reduced to a half shirt, although he wore only a half on his back; he wore the other half in front of him."—[Rome Sentine]

CLOSING PRICES OF PHILADELPHIA STOCKS.

Reported by JOHN H. DAVIS & Co., 17 Wall-st.

THE MONEY MARKET. SALES AT THE STOCK EXCHANGE. MARCH 2, 1883.

THE GENERAL LIST.

Actual Sales. Closing Bids. O'pg. H'g't. Low't Final. Bid. Ask'd Sold.

are cash in the banks or in the hands of the public, is \$9,528,590 greater than on February 1. The gold coin and bullion accumulated during February amounted to \$4,343,796, and the redemption of gold certificates was \$5,115,170; so the Treasury owns \$9,458,966 more gold than on February 1. The amount of currency held (legal-tender notes, National banks and exchange) was reduced \$2,924,770. The accumulation of legal-tender dollars was \$2,730,475, and the net redemption of silver certificates was \$3,141,875 more of the "dollars of our fathers" than it did on February 1. The amount of silver bullion uncoined to \$4,343,796, and the amount of silver bullion uncoined to \$4,343,796, and the amount of silver bullion uncoined to \$4,343,796, and the amount of silver bullion uncoined to \$4,343,796, and the amount of fractional silver correspond to the substitute of the "dollars of our fathers" than it did on \$4,345,346, and the amount of fractional silver correspond to \$4,345,346, and the amount of fractional silver correspond to \$4,345,346, and the amount of fractional silver correspond to \$4,345,346, and the amount of fractional silver correspond to \$4,345,346, and the amount of fractional silver correspond to \$4,345,346, and the amount of fractional silver correspond to \$4,345,346, and the amount of fractional silver correspond to \$4,345,346, and the amount of fractional silver correspond to \$4,345,346, and the amount of fractional silver correspond to \$4,345,346, and the amount of fractional silver correspond to \$4,345,346, and the amount of fractional silver correspond to \$4,345,346, and the amount of fractional silver correspond to \$4,345, and \$4,345, \$27,507,276. The net increase in the Treasury's ownership of silver of all kinds for the month was \$3,726,062.

In our usual form we present an analysis of the Treasurer's statement of March 1, 1883, as fol-LIABILITIES.

State bonds were dull; the sales include Arkansas 7s to Pine Bluff and Red River Railroads at 45, Virginia consols, ex-matured interest, at 58, and Alabamas, class A, at 8234. There was renewed inquiry for the Arkansas 7s to the railroads, and at the close the general quotation, except for the Centrals, was 4712@55. Of city bank stocks, Marine sold (10) at 145 and Park (5) at 160.

The business in railroad bonds was well distrib-

uted, but it was chiefly of a retail character. Texas and Pacific incomes again were a special feature, and with more than usually large transactions their price rose from 5812 to 61 and reacted to 60. Missouri, Kansas and Texas general mortgages also rose from 7712 to 79; the first consols were 12 higher at 105 and the seconds were up 112 to 56. Eric second consols were neglected and only one bond was sold all day, and that at 96%; the closing quotation is 96%.

97. Rome, Watertown and Ogdensburg extended 5s were 38 higher at 71%, and the new incomes (for one bond) were 78 higher at 41. politan Elevated firsts were barely steady at about 97. New-York, West Shore and Buffalo 5s were up 58 at 7528. Cleveland and Pittsburg sinking fund came to market (\$99,000) at 12612@126. East Tennessee, Virginia and Georgia 5s were 1s higher

delphia firsts soid at 97½@9738, and New-York, Lackawanna and We tern firsts at 116. Northern Pacific firsts were steady at 10388, and St. Louis and San Francisco general mortgages were ½ lower

MINES AND MINING.

The mining stock markets to-day were dull, but generally the prices either were steady or firm. Horn Silver was more than usually, active and after 8¹4, closed with a gain of ¹s at 8. Bassick was firm at 10, and Sierra Grande at 2.80@2.75, Alice was exceptionally weak at 3@3.05. Robinson was neglected at 1@1.05, and Chrysolite was strong at 1.45. Green Mountain was up 10 cents at 70 cents. A large business was done in Sonora Consolidated, and it row 2 cents to 38 cents. The Comstocks were irregular, but generally firmer for the higher priced stocks.

BY TELEGRAPH TO THE TRIBUNE. EL PASO, Tex., March 2.—A "conducta" with a large quantity of silver bullion from Batopilas has just reached Chihuahua.

A large body of rich ore has just been struck in the Cusihurriachic mine, near Chihuahua.

Bullion valued at \$66,469 15 was received in this

Bullion valued at \$06,469 15 was received in this city within the last two days from the mines.

Caledonia (B. H.) superintendent reports for week ending February 18: "Ore produced, 1,025 tons. Bullion shipped, 457½ onnees; value, \$8,000. As the south leader is in fair milling ore, we have discontinued running it, and have started stopes. The lower winze has advanced 4½ feet; total, 25½ feet. Upper winze advanced 16 feet; total, 25 feet. Both whozes are in good ore. Machinery at both mill and mine is running well."

"The Empire mine was flooded Thursday night, and work has been temporarily suspended," says The Park Mining Record (Utah) of February 24. "It is thought the recent actions brought arainst the company in the Third District Court, will be satisfactorily adjusted. The company has been very unfortunate in its operations in this district, and the blame cannot be attached to any of the superintendents or to the ground which is being worked. Good judges who have gained access to the mine are firm in their belief that if work was continued without interruption the Empire would soon come out in the inest shape. They have good rich ore it some of the levels, but to what extent is not known. We hope the management will be able to pump the mine out soon and continue work without interruption until the property is fully developed."

THE PETROLEUM MARKET.

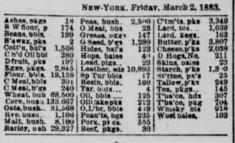

NEW-YORK, March 2. The petroleum speculation to-day was as devoid of feature as it was yesterday. Increased dulness and a further drooping of prices marked the dearings. There was a decline of 348,000 barrels from the new incomes (for one bond) were $^{7}8$ higher at 41.

Chesapeake and Ohio firsts, series A, were $^{1}2$ higher at $^{12}4$, and the currency debts were $^{1}4$ higher at $^{12}4$, metropolitan Elevated firsts were barely steady at about The course of prices is simply the result of the inactivity that prevails. When little is doing the carrying charges incident to petroleum speculation compel a certain amount of sales by discouraged holders. No sales are now pressing upon the market, nor is any good buying going on. The speculation is extremely sensitive to a movement in either direction, but without any decided action by speculators the only uniquence on the market

2,014,000

THE MARKETS.

TOTAL RECEIPTS OF PRODUCE, Per North River, Vessels and Railroads,

GENERAL MARKET REPORT. NEW-YORK. Friday, March 2, 1883.

ASH EN—Quiet but steady; Pots, 5-985-4ec; Poaris, 64ec.
BEESWAX—Remained firm; the demands are good and
stocks not large; Western and Southern, 33-8-56c.
CANDLES—teady.
COAL—Anthracite was steady, although still quiet; there
were no new features; quoted \$-20254-70 by the cargo,
alongside. Bitunuinous quiet a: \$3.75254-75.
COBDAGE—Steady and quiet.
COOPERAGE STOCK—Remained quiet but in the main
steady. cooperacte stock—lemaned quiet but in the main steady.

COFFEE—Rio on the spot more active and advanced to 94c, for Fair; sales 2,000 bars et Herschel. 2,0.0 bags ex Ptolemy. 7,000 bags ex Douatl, on private terms. The Humbert arrived with 34,003 bars and the J. R. Nanhope with 8,000 bags, lacreasing the took here to 79,405 bags; ootions advanced to to 29 points, but closed barely sleady; sales, 12,000 bags, closing as follows: January, 8,30c. February, 8,40c.; March, 7,45c.; April. 7,5c.; May, 7,75c.; June, 7,95c.; July, 8,19c.; August, 8,15c.; September, 8,29c.; Getober, 8,30c.; November, 8,30c.; December, 8,30c. Mild time but quiet from first hands; a good s cond hand trade reported.

Southern 1 225 bc.; Limed, 182 llc.

RICE—Moderately active, firm and unchanged.

SEEDS—About steady and moderately active; Calcutta Linseed \$1 82 bc. \$5.5; Timothy, \$2 10 25 20; Clover, 134 20 ldc. Flarseed \$1 40.

SPECES—Quiet unchanged.

SUGAR—Haw firm, but quiet; Fzir. 7c.; 96° test Centrifugal. 74c.; Refined firmer. Mould "A." 85c.; Contectioners' 60, 85c.; Isandard "A." 85c.; of "A." 85 25 bc.; White Extra "C." 85c.; Extra "C." 8c.; "C." 74, 277c., Yellow "C." 75 275c.; Crushed, 94c.; Cu es, 95c.; Cut Loat, 94 295c.; Powdered, 950 9c.; Granulated, 9c.

STEARINE—quiet and steady; Choice City quoted 115c.; Western. 115c.; sales, 60,000 fb. 85c.

TALLOW—About steady and quiet; Prime City quoted 85 28 26 0c.; sales, 60,000 fb. 85c.

TALLOW—About steady and quiet; Prime City quoted 85 28 28 6c.; sales, 45,000 fb. 85c.

TALLOW—About steady and quiet; Prime City quoted 80 20 bales Havana, 85c 281 15.

WOOL—The demands have continued good; all prices are firm, and indications of an atvance are noticed. The liste demands have absorbed a good percentage of holders' stocks; asiaes, 135,000 fb. 9c.; 10,000 8coured de, 55c.; 6,000 8coured Gray, 10,000 Southern, 30c.; 75,000 8pring California, 10 25c.; 50 bales Scoured, 46c.; 6,000 8coured Gray, 10,000 Southern, 30c.; 75,000 8pring California, 10 25c.; 50 bales Scoured, 46c.; 6,000 8coured Gray, 10,000 Spring, 23 25c.; 25,000 fb.
